## **1. Project introduction**

### **1.1 Introduction**

Atlantis Origin is a meta-universe autonomous ecosystem, a DAO organization that aims to build a professional ecological community and create a source of income for the unemployed around the world. The main products include games (ATLANTIS ORIGIN GAME), decentralized exchanges (ATSWAP), NFT (ANFT), etc.

### **1.2 Design Background**

In recent years, affected by the new crown epidemic, the number of unemployed people around the world has continued to rise. Unemployment brings not only the reduction or disappearance of income, but also many factors of social instability.

Atlantis Origin has insight into this. After a long period of research and in-depth market analysis, it aims to solve the problem of reduced or disappeared income due to unemployment by constructing a virtual career environment.

### **1.3 Design Concept**

Based on the large number of users in the market, Atlantis Origin creates a virtual reality environment for people with different income gaps due to different abilities, and creates an ecological platform that is easy to use, easy to trade and realize. This is equivalent to creating a virtual working environment for the unemployed, in which users can get paid by completing simple tasks through games.

The Atlantis Origin ecosystem will not only provide a virtual working environment, but will also establish a global unemployment relief fund,

aiming to provide a certain transition period for unemployed users to solve life problems caused by unemployment, and to provide help for those unemployed who work hard and solve employment. And competency training.

#### 1.4 Project Structure

**Illustrate:** Atlantis Origin ecology is a digital integrated platform that guarantees the long-term operation of the project by realizing the application of blockchain technology。

Contains:

- Technical module: Responsible for technology development and maintenance
- Market module: Responsible for establishing market order, new and promotion
- Operation module: responsible for product operation, user conversion and promotion, event design and organization
- Finance module: responsible for capital use and investment
- Product module: Responsible for product design and iteration and optimization
- Legal, Security and Public Relations Module: Responsible for project compliance

## 2. Product Description

Atlantis Origin ecological products are all decentralized products based on blockchain technology to build a real-world application system of virtual technology。

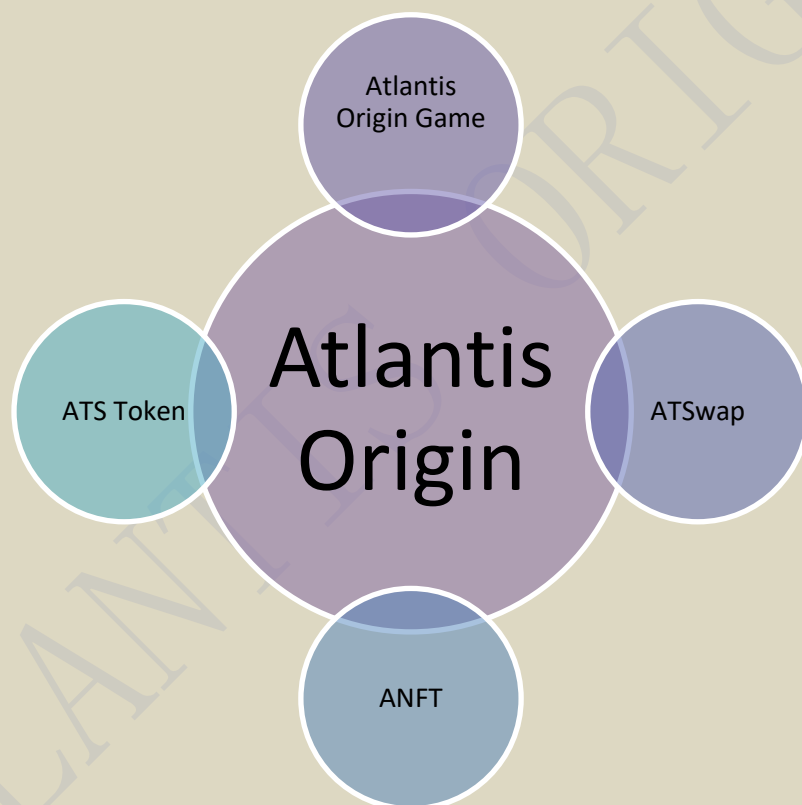

### 2.1 Product Composition

- **ATS token:** A general token issued by the Atlantis Origin ecosystem, which is mainly used for the governance, circulation, exchange, and reward of the Atlantis Origin ecosystem.

- Atlantis Origin Game: Atlantis Origin's primary ecological product, which provides users with a Play-To-Earn application scenario, and also gives ATS Token and ANFT practical application scenarios.

- ANFT: The non-homogeneous tokens issued by Atlantis Origin will be used in the Atlantis Origin ecological market.

- ATSwap: The decentralized trading market of Atlantis Origin ecosystem.

## 2.2 Product Properties

- ATS Token

Token Name: ATLANTIS ORIGIN

Token Symbol: ATS

TOTAL SUPPLY: 20000000000

SEO mechanism: None

Destruction mechanism: None

Dividend mechanism: None

- Atlantis Origin Game

The first part of the game is Origin（起源）

The name of the continent is Arthur Land, which is derived from King Arthur, the leader of the twelve knights of the round table in Atlantis.

- • Scene: The in-game scenes are divided into land, forest, ocean, river, mountain, forest, and city

- • Buildings: shops, houses, roads, bridges, walls

- • Role: Ruler (manager of an area, with large tracts of land resources and construction resources)

The governor (the shop owner of the governor, the public service group, and the army are all governors)

Citizen (Ordinary players in the game)

- • Props: construction, tools, clothing, generated by game consumption

- • Rules: Every player will have a certain amount of token consumption in the game, and the consumption will be controlled within a reasonable range. The way of consumption is life consumption, including food, drink, housing, and transportation. At the same time, certain tasks need to be performed in the game, such as ordinary players helping lumber yards to cut logs and real estate developers to

build houses. You only need to participate in labor to get paid. Merchants go to run shops to serve ordinary players to earn income, and those in power rent land and manage to earn income, and so on.

- ANFT

ANFT divided into two categories:

- NFT Identity Medal: The NFT Identity Medal is the only proof of identity for players to enter the game. Only those who have the medal can earn while playing in the game. Including: Gold Medal (identity certificate of the governor, total circulation of 1288 pieces, no additional issuance); Silver Medal (identity certificate of governor, initial circulation of 10,000 pieces, additional issuance); Bronze Medal: (certificate of citizenship, for the first time 50,000 pieces in circulation, additional issuance is possible)

- NFT Virtual assets: including in-game territory, buildings, tools, clothing, etc., which are all virtual assets of players in the preview, and assets can be traded.

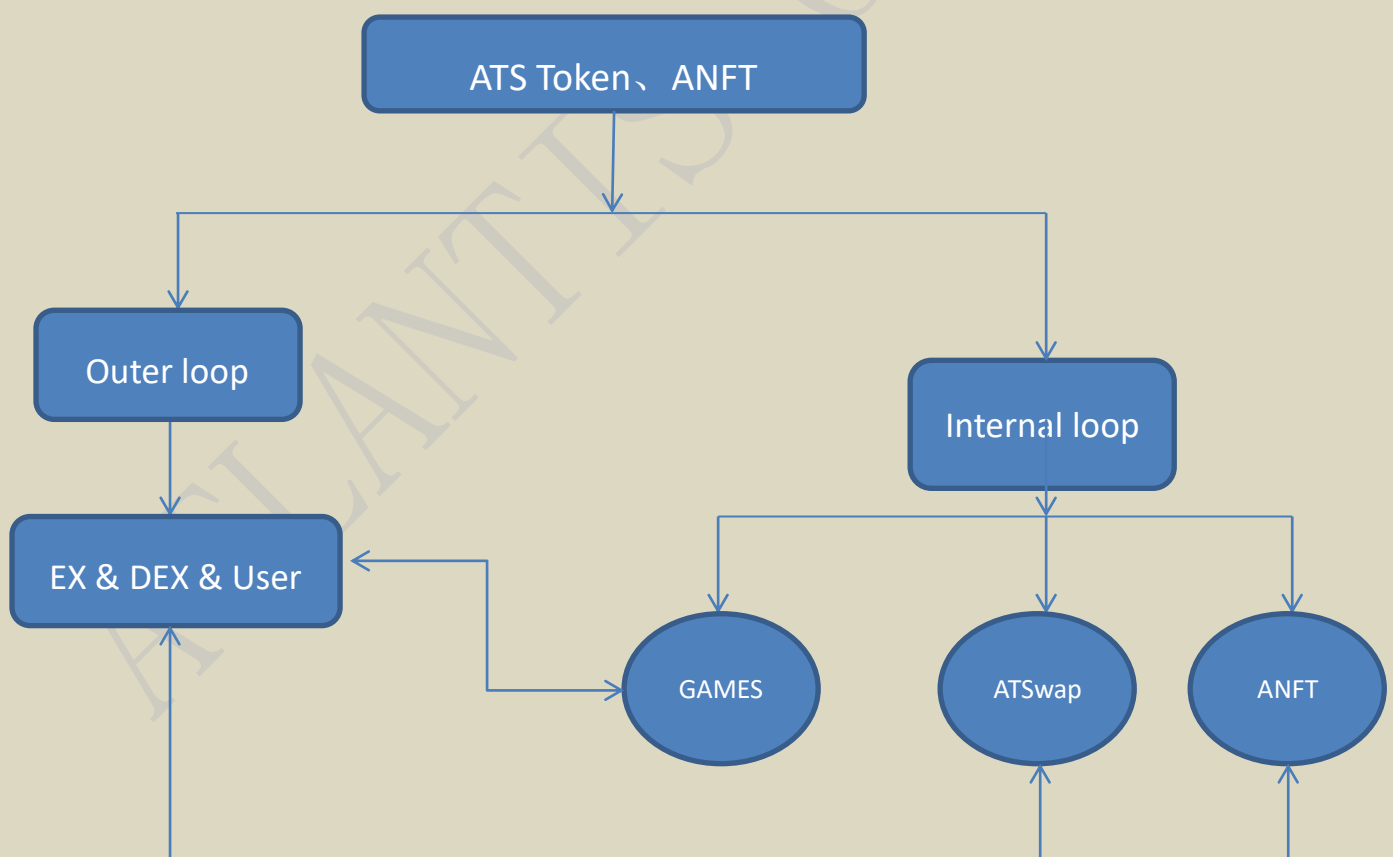

- ATSwap

ATSwap is a regional centralized exchange based on the Atlantis Origin ecology. It aims to establish a community autonomy among users and a platform that can automatically trade and bid on NFT assets and digital currencies in the game. ATSwap will also set up a Game incubator to incubate new meta-universe projects for the Atlantis Origin ecosystem.

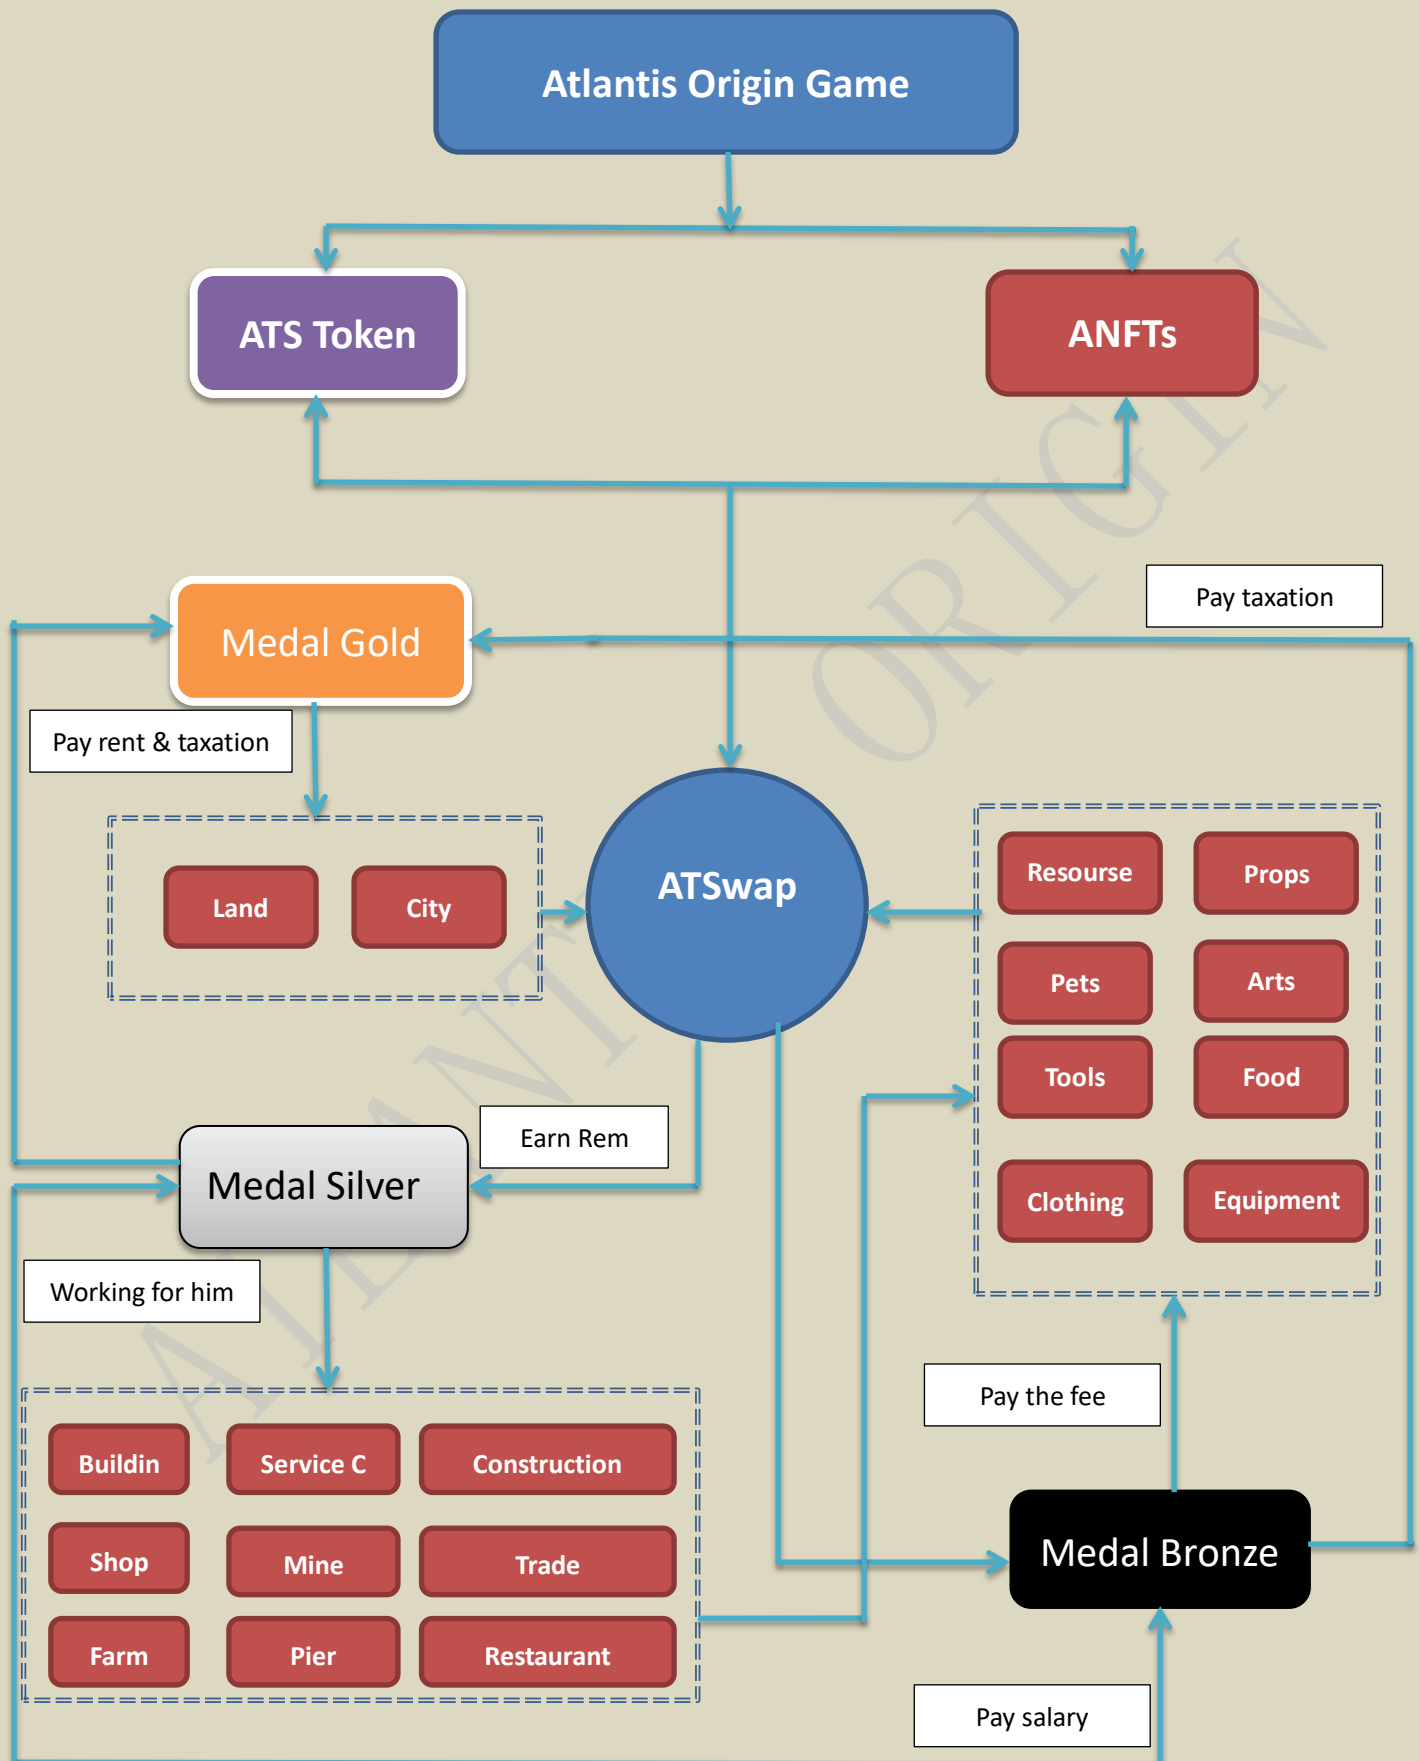

## 2.3 Product Circulation Model

2.3.1 Atlantis Origin fully integrates ATS tokens and ANFT, and gives application scenarios, optimizes circulation methods, and improves its value attributes.

ATS Token & ANFT will carry out joint applications inside and outside the ecosystem.

## 2.3.2 In-game token circulation model

### 3. Token Economics

After careful consideration, we decided to allocate ATS Token as follows, aiming to allow all users, teams, investors, institutions, and the market to trade fairly. 3.1 代币分配

- Unemployment Relief Fund (gaming)-30%
- Centralized and decentralized markets-25%
- Team holding-20%
- Investors and institutions hold-10%
- Pre-sale and private placement, public placement-10%
- Community incentives-5%

#### 3.2 Release Period And Ratio

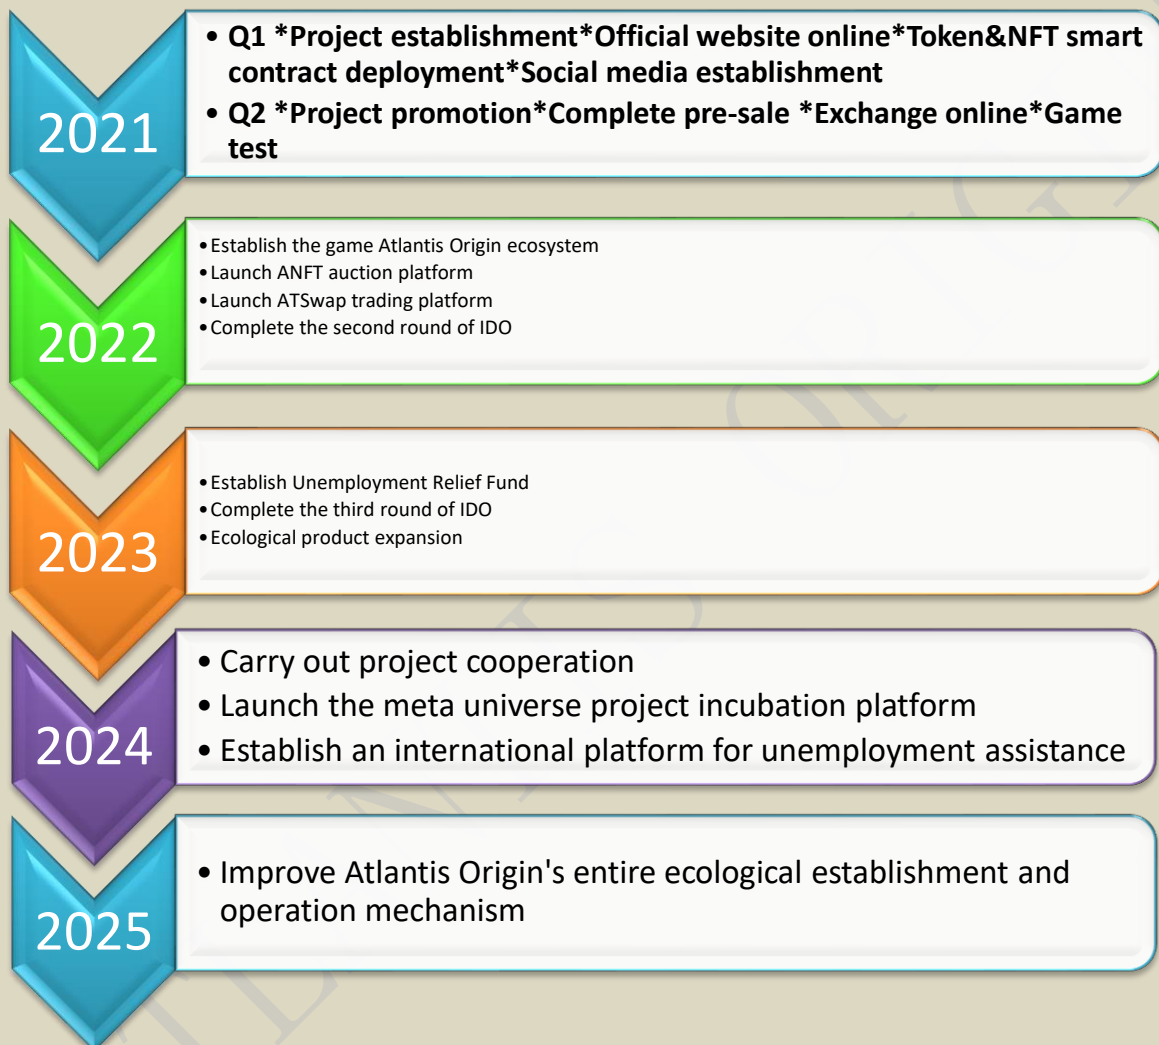

- 30% of the Unemployment Relief Foundation, 5-year linear release, the first year: 10%; the second year: 15%; the third year: 30%; the fourth year: 25%; the fifth year: 20%.

- Centralized and decentralized market 25%, 5 years average release, 20% per year.
- Team 20%, 5-year linear release, 40% in the first year, and 15% per year for the rest.
- 10% for investors and institutions, linear release for 5 years, 30% for the first year; 25% for the second year, and 15% each year for the rest.
- Pre-sale and private placement, public placement 10%, will be conducted in 3 years. 50% in the first year, 25% in the second year; 25% in the third year;
- Community incentive 5%, 5-year linear release, the first year: 30%; the second year: 25%; the third year: 20%; the fourth year: 10%; the fifth year: 10%.

## 4. Development Route

Atlantis Origin has a long-term plan for the future of the project. We are very optimistic about this market and plan to iterate and update our ecological products and development direction in the future.

In the future, we will also conduct research in different sectors in the same field, and combine the existing ecosystem to establish more community platforms that conform to DAO's autonomy, aiming to continuously improve social influence through this move; establish a comprehensive system through all projects Charity system.

The goal of Atlantis Origin goes far beyond this. We hope that our community users, investors and other people in society can see our efforts to this end, recognize our achievements, and help us further improve the Atlantis Origin ecosystem.

## 7. Risk Warning And Disclaimer

### 7.1 Risk warning

- Systematic risks Security is the highest priority of the Atlantis Origin protocol. Atlantis Origin's audit members have put a lot of effort into ensuring that the protocol is safe and reliable. Atlantis Origin related smart contract codes are publicly verifiable, and we also invite external security personnel to look for loopholes in the agreement and get rewards.

- Investment risk ATLANTIS ORIGIN is an application-based governance token issued by Atlantis Origin, not an investment product. Before making a purchase decision, the purchaser should carefully consider whether it is suitable for its financial situation, purchase

objectives and experience, risk tolerance, and other relevant circumstances, and should also understand the related risks involved in the purchase of ATLANTIS ORIGIN.

- The risk of regulatory pressure is undeniable. In the foreseeable future, countries around the world will issue regulatory regulations to restrict and regulate the blockchain. If the regulatory body implements containment and stop management in this field, the investment enthusiasm in the DeFi field may decrease to a certain extent from the hot market in 2020.

- Vicious competition risk At present, there are many teams and projects in the field of blockchain technology, and the competition is very fierce. There is strong market competition and project operation pressure. Whether the Atlantis Origin platform can break through and be widely recognized in many excellent projects is not only linked to its own team capabilities, vision planning, etc., but also affected by many competitors and even oligarchs in the market, during which there is the possibility of facing vicious competition.

- Hacker attack risk. In terms of security, hacker attacks that have occurred in the history of the blockchain field can be seen. Platforms with a large number of users and the value of digital assets are most vulnerable to hackers' attention and their evil intentions. For Atlantis Origin, this places high demands on the security of the platform itself.

- Other risks currently unknown. With the continuous development

of blockchain technology and the overall situation of the industry, Atlantis Origin's future operations may face some unforeseen risks. Blockchain enthusiasts are asked to fully understand the team background, understand the overall framework and ideas of operation and management, and participate rationally before making the experience of participating in the decentralized exchange.
